President Message Jan Duncan, RHIT, CTR

Hello, Everyone,

I hope that you had a wonderful summer. It seems like we were just at Caribbean Cove for our Fall Conference, and yet here we are again making final preparations with Marten House for our 2014 Conference, "It's a Wonderful Life". I'm not a creative person, but after 26 years in the registry, I can only look back at my career and think that I truly did have a wonderful life. When I began in 1988, most of us were still using paper abstracts, 3 x 5 cards for our MPI, 5 x 8 cards in a "tickler file" for follow-up, and the only site we had to worry about TNM staging was breast. Treatment was pretty much surgery, external beam radiation, or nitrogen mustard chemotherapy. Over the course of my career surgery became micro-invasive and is done in many cases with a robot; radiation now includes IMRT, IGRT, CyberKnife, Proton Therapy, and Photon Therapy; and chemotherapy has grown to multiple agent regimens and targeted therapies. We've added hormone therapy for several sites and vaccine therapy is under development. It has truly been a good time to be in this field. On another positive note, April Fritz is doing well and we are so pleased she plans to be with us again this year, and former member Val Vesich is returning to her home state as a vendor and speaker. Program Chair Joyce Larko has been working diligently and has secured several other speakers as well; please refer to her article and the program flyer for details.

Thank you to everyone who agreed to be on the ballot for next year, and please consider chairing or serving on a committee. ICRA is a wonderful organization and I have truly enjoyed serving as president this year. Thanks most of all to my wonderful board; you have done a terrific job and I'm honored to serve with all of you.

Take care, everyone, and hope to see you in November.

President Elect/Auditing Committee, Nancy Whipple, CTR

I hope everyone had a GREAT summer. I have not yet completed the audit of the Treasurer's books, but hope to complete it soon. I am sure we are in good order.

I am in the process of choosing a location for your 2015 ICRA Fall Conference.

Past President/Nominations/ Ways & Means, Joann Schultz, RHIT, CTR

Past President/Nominations Update:

I hope everyone has enjoyed the summer. Thank you to all who completed the call for nominations. A very special thank you to all who have agreed to run for an office. Please complete your ballots. Your vote is important. Thank you to my committee members Phyllis Polarek, RHIA, CTR & Kristin Wennerstrom RHIT. See you at the Fall Conference.

Ways & Means Update:

Once again at the Fall Conference we will hold the ever popular Silent Auction. If you have an item you wish to donate please let me know. We are in the process of arranging Dining To Donate both Wednesday & Thursday evenings at the Fall Conference details will be announced in a blast e-mail. Please watch for a blast e-mail closer to the Fall Conference. I am looking forward to seeing you at the Fall Conference.

Secretary and Website Committee Chair, Cassandra (Cassie) Nobbe, CTR

ICRA's website's (www.icra-indiana.net) registrar's resource page is going to undergo some reconstruction and reorganization. Many of the hyperlinks to the resources do not launch. The new page will consist of links for the following categories: Articles, Journals & Publications; Associations & Organizations; General Education & Awareness; Formal Education Programs; Reference Manuals; Regional & State Registry Sites; Training Resources. If you have any helpful web resources that you would like to share with your colleagues on this page please contact the webmaster at icra_indiana@yahoo.com.

Reminder: ICRA's e-mail address is icra_indiana@yahoo.com. Please add this address to your list of contacts. This address will be used to send all of ICRA's broadcast e-mails. As a member, you should receive a few e-mails annually. If you find you are not receiving e-mails, please contact us using ICRA's e-mail address. Please remember to contact us if your home or work contact information changes.

Vice President/NCRA & CoC Liaison, Kimberly Turpin, RHIT, CTR

I would like to start by saying how thankful I am to have been able to attend the 40th NCRA Conference held in Nashville, TN. Opry Mills is such a beautiful place. The conference was a great experience filled with wonderful people and lots of information. I met many wonderful people who came from all over. I also had the honor to meet representatives from all states and NCRA at the President's Meet and Greet lunch. 34 baskets were raffled this year including one from ICRA, selling a total of 4973 raffle tickets! Overall, this conference was very helpful for all in the Cancer Registry profession. Thank you ICRA for sending me to represent our state.

NCRA Update:

NCRA launched a new website: www.ncra-usa.org. Features include: enhanced navigation with refined menu options, updated utility bar with immediate access to the most popular content, improved site-wide search functionality, and much more.

Be sure to check out the 13 new educational videos regarding Collaborative Stage in tandem with V02.05.

There are also many sources for education to prep you for the CTR Exam on NCRA's website.

NCRA sent a newsletter in early July asking for letters of support from your facility to help establish a distinct detailed occupation code of "Medical Registrar" in the office of Management and Budget (OMB) Standard Occupational Classification (SOC). Send letters and/or questions to policystaff@ncra-usa.org. The final decision for this will be made in 2018.

September 19, 2014 is the application Deadline for the Fall 2014 CTR Exam. The last 2014 testing window is October 18-November 8.

CoC Update:

The CoC is seeking input from registrars, data users, physicians, and others to modernize the FORDS manual. This project started in April 2014, and input will be gathered through an electronic survey, which will be open through September 2014.

REGISTRY PARTNERS INC.

A name you can TRUST, QUALITY and EFFICIENCY you can rely on...
A consulting company that can meet ALL your needs.

CoC/NAPBC Consulting & Accreditation Services:

- Coc-Trained Cancer Program Consultants on Staff
- Standards Education & Interpretation
- Best Practices & Compliance Strategies
- Managing Accreditation

Cancer Registry Operations & Management Services:

- Full Outsource / Backlog Assistance
- Mentoring & Training
- Operations & Management Efficiencies
- Quality Control / Productivity Improvement

Education Chair, Jan Stengel, RHIA, CTR

The last coding workshop for 2014 was held August 4 at the Indiana State Department of Health. The workshop concentrated on directly coded stage. This included AJCC as well as Summary Stage 2000. To reinforce the rules and importance of chapter rules taking priority over the general rules, exercises were completed highlighting the following sites: breast, prostate, bladder, lung, and endometrium. This workshop was videotaped. The Indiana State Cancer Registry (ISCR) is working on having this available on the ISDH Website. NPCR and the CoC require clinical and pathologic AJCC stage as applicable. Clinical and pathologic stage is not to be mixed unless staging rules allow. Be sure to read the chapter rules as they take precedence over the general rules. Summary Stage is required by NPCR. Using the electronic manual on the SEER Website is preferred. It is found at: <http://seer.cancer.gov/tools/ssm/>

Collaborative Stage Transition

The standard setters are finalizing plans for the transition from Collaborative Staging (CS) to directly assigned AJCC TNM stage and SEER Summary Stage (SS). The final revisions are to be submitted by December 1, 2014. NAACCR Standards Volume II will be released July 1, 2015 and the EDITS Metafile is to be released September 1, 2015. The requirement for directly assigned AJCC TNM stage will be effective for cases diagnosed January 1, 2016 and later. Education and training will be ongoing.

2014- 2015

CS will continue to be collected for 2014 and 2015 diagnoses and requires conversion to CS v 02.05. NPCR, SEER, CoC and other work groups are working through NAACCR to determine the preferred method of collection and transmittal of data currently collected in CS. The CoC requires both clinical and pathologic stage when applicable. In order to practice one's ability to read and understand how to stage directly from the manuals, it may be wise to directly code AJCC Stage as well as Summary Stage and see how one's results compare with the derived stage after completing the CS fields. As always, physician staging is required. Stage should be completed when physician stage is not available.

2015

NPCR (IN State Registry) will require directly coded SS (in addition to CS) beginning with cases diagnosed January 1, 2015. Summary Stage categorizes how far cancer has spread from the point of origin combining clinical and pathologic documentation. SEER recommends that the updated Summary Stage Manual on their Web site be used, rather than the Summary Stage Manual - 2000. It can be found at the following link: <http://www.seer.cancer.gov/tools/ssm/>

2016

NPCR (IN State Registry) will require directly coded SS; Clinical T, N, M for all cases; and Pathologic T, N, M for eligible cases. AJCC 7th edition will be used until 2017. CS coding will be

discontinued except for some variables, especially many of the Site Specific Factors (SSF's). The standard setters will clarify which additional variables and SSF's will be collected.

FORDS

The FORDS Revision project is underway. The CoC is in the process of revising the FORDS manual. September 2014 is the deadline for anyone to submit suggestions on fields and data items that one would like to see made clearer or ones where new codes would be helpful. As we abstract sometimes we see first-hand where some of the coding options could be more useful and or defined better. This is a chance to give ideas before they finalize the latest revision. Submit suggestions by going to the following link: <http://www.facs.org/cancer/coc/fordsrevision.html> There are options to change, add or delete an item. They ask for examples of scenarios to provide the rationale for the change. They also ask for your contact information in case they need clarification from you. The contact information will not be disseminated.

RQRS

The Rapid Quality Reporting System (RQRS) has replaced the CoC standard for "Timeliness." Cases should not be submitted to the State, however, until they are complete. Facilities that use RMCDS software should put the cases in suspense until they are complete. Cases in suspense can be reported to the RQRS, but are not included in State submissions. Those who use other software should contact the vendor for a method to prevent submission of incomplete cases to the State Registry.

Grade for 2014

The standard setters have collaborated to consolidate and clarify the coding rules for grade (NAACCR item #440, Grade, Differentiation or Cell Indicator) for cases diagnosed January 1, 2014 and forward. The "Instructions for Coding Grade for 2014+" can be found at the following link: <http://seer.cancer.gov/tools/grade/>. Please save a copy of these instructions as your reference for accurately coding grade for cases diagnosed 2014 and forward.

SEER Web-Based Education

SEER has a new education portal at the following URL: <https://educate.fhcrc.org> There are case scenarios that can be abstracted. The answers with rationale are then provided when finished. CE's are also available. This is a free education tool. This application is supported only by Firefox and Chrome browsers.

Education

AJCC and Collaborative Stage are in the process of developing short You-tube videos to answer a specific coding question in 5 minutes. This can be accessed via the CS Website as well as You Tube. The content will include rules, schemas, resources and SSF's.

The NCRA Website has presentations that go over T, N, and M staging as well as Summary Stage. One can obtain CE's for a fee. There are also many upcoming Webinars on stage and the transition to directly coded stage. Please see: <http://www.cancerregistryeducation.org/tnmss-resources>

The next CTR exam is scheduled for October 18 - Nov. 8, 2014. The application deadline was September 19, 2014.

The State did purchase next year's NAACCR Webinar series. I highly encourage all of you to participate, as you are able. Each Webinar covers the anatomy of the site being presented, Fords treatment codes as well as Collaborative Stage. They air 9:00 AM – 12:00 PM and offer 3 CE's for each Webinar. The following are the topics for the 2014-2015 series:

9/11/14 Coding Pitfalls

10/02/14 Directly Coded Stage Data: Using the AJCC Cancer Staging Manual 7th Ed. And Summary Stage 2000

11/06/14 Collecting Cancer Data: Hematopoietic and Lymphoid Neoplasms

12/04/14 Using the Multiple Primary and Histology (MP/H) Coding Rules

01/08/15 Collecting Cancer Data: Testis

02/05/15 Collecting Cancer Data: Uterus

03/05/15 Abstracting and Coding Boot Camp: Cancer Case Scenarios

04/02/15 Collecting Cancer Data: Stomach and Esophagus

05/07/15 Collecting Cancer Data: Larynx and Thyroid

06/04/15 Collecting Cancer Data: Pancreas

07/09/15 Survivorship Care Plans

08/06/15 Collecting Cancer Data: Central Nervous System

09/03/15 Coding Pitfalls

ACS Liaison, Kolleen Spencer, CTR

Have you Heard the News!!

The facility Partnership Report is available through the American Cancer Society. The report summarizes the ACS support of selected CoC Standards and Eligibility Requirements.

A highlight of this report includes information available on Standard 3.1: Patient Navigation Process, a published grid includes individual facility referral to the ACS for the following service requests YTD, patients referred for HRH medical staff, newly diagnosed patients served YTD , un-insured or under-insured patients served YTD and the top sites referred.

To obtain a report contact your ACS staff partner. Individual reports are not published publicly online due to patient privacy through the ACS referral system.

HISTORIAN, Claudia Jenkins, CTR

I was fortunate that my Hospital sent me to NCRA in Nashville in May; of course Rizzo and Reggie wanted to go with me. While I was there Nancy Hunt and I had the opportunity to enjoy breakfast with some Registrars from Taiwan. Here we are along with Rizzo and Reggie for a quick snap shot.

Please visit the historian booth for more pictures from NCRA.

Historian Game for ICRA Conference

Have you been having fun with your Flat Registrars this summer? If not, you are not too late. You still have plenty of time! Please let me know if you have any questions.

Hi we are Reggie and Rizzo your Flat Registrars.

All year long take us with you on your vacations, to work and to educational opportunities. Anywhere you can think of! Be creative!! At the ICRA Conference in November we will ask the attendees to vote and this will be the Historian game.

Instructions:

1. Print out which ever Flat Registrar you want Rizzo and Reggie (or both). ***Please see the bottom of this paper, they are saved as PDF file. Black and white is OK if you don't have a color printer. You can color them if you want, but it's not necessary. You can also support them with something if you choose, such as a paint stick.
2. Take your flat registrar with you. Have someone take a picture of you with your Flat Registrar(s).
3. Email the picture to me at crcjj@uhhg.org. I will send an email back to acknowledge that I have received the picture. Please indicate which category you would like to have your picture in, along with a caption for the photo such as "Rizzo, Reggie and I having fun at the pool". Deadline for emails, will be one week prior to the ICRA Conference. If you choose to bring the developed picture with you to the Conference, the deadline will be the Welcome from our President.

***If you bring your picture to the Conference we will give you a label so that you can label your picture.

4. I will have the pictures developed and make a display for the conference. Conference attendees will vote on the pictures based following categories.
 - a. Most Fun
 - b. Most Educational
 - c. You and your Flat Registrar being healthy
 - d. Most creative

In case of a tie, we will draw names from those who have tied.

We will also have a category of farthest traveled from your home (please list City or Town). Both you and Flat Registrar must be in the picture at that destination, along with something identifying the destination.

Our Flat Registrars Rizzo and Reggie will be available at the Conference for photo opportunities, but these will not be in the game.

****Pictures attached below.

Membership Chair, Sherry Dowling, CTR

As of August 11, 2014, we have eighty-nine 2014-2015 ICRA members.

Four ICRA members referred new members and their names will be entered into the membership drive contest. The drawing for the winner of the \$50.00 cash prize will take place at the ICRA 2014 Fall Conference. Currently we have fourteen new members:

Kathie Jo Bieschkke, MA
Memorial Hospital of South Bend

Connie J. Ring, CTR
Luthern, Ft. Wayne

Jennipher Holcomb, LPN, CTR
Reid Hospital and Health Care Services

Lorraine Stage, RHIA, CTR
Methodist Hospitals

Tracy A. Geiser
IU Health Goshen Ctr Cancer

Leann E. Tanaskovic, RHIT
Methodist Hospitals

Melissa A. Krug, RHIT
Franciscan St. Francis Health

Kristin Wagner, RHIT
Deaconess

Yolanda Levy, RHIT, CTR
Roudebush VA Medical Center

Annette Waymire, RHIT, CTR
CHAMPS

Jane Murphy, RN
Richard L Roudebush VAMC

Kristin Wennerstrom, RHIT
Porter Regional Hospital

Pamela Neal, CTR
IUH-Bloomington

Leslie Woodard
St. Francis

Please remember to notify us of any changes to your contact information, so you will receive correspondence in a timely matter.

See you at the fall conference!

Public Relations/ IHIMA Liaison, Brandy Lewis, CTR

Public Relations Update:

Reminder: Please contact Public Relations if you know of any member who has lost a loved one from their immediate family. ICRA would like to assure them of our genuine concern and support.

We would like to emphasize that the Public Relations Committee always welcomes ideas for the newsletter and encourage articles from you, the membership. You don't need to be on the Board to submit an article. Let's hear from you!

IHIMA Update:

ICD-10 is coming! The new implementation date is set for October 2015. Now is the time to ensure that physicians, coders, clinical staff, and managers are educated in ICD-10-CM and ICD-10-PCS. LHIMA's webinar series for will cater to a variety of areas and will provide much needed education advanced coders, non-coders, managers and clinical staff. There will be 6 webinars covering a variety of topics for all areas of the healthcare facility to prepare for the potential implementation date of October 2015. CIHIMA is open to any person meeting the IHIMA membership requirements and/or other interested persons involved in the health information management field and are located within the Central Indiana area. For more information, visit www.ihima.org.

Program Committee Chair, Joyce Larko, RHIT, CTR

You are cordially invited to join us for our "It's A Wonderful Life" Fall Conference

November 6 and November 7, 2014 at The Marten House.

I am so pleased that April Fritz is planning to be with us. She will be discussing hematopoietic diseases multiple primaries and histologies and will also help us with systemic and radiation therapy coding issues. She will show us how to make the most of online references and data bases. Our physician speakers include: Dr. Michael Dugan from Indiana Blood and Marrow Transplantation, Franciscan St. Francis-Indianapolis; Dr. Mark McDonald from Indiana University Proton Therapy Center, Bloomington; and Dr. Sarah Ali, hematology and oncology, Franciscan St. Francis-Indianapolis who will discuss breast cancer treatment. Val Vesich, RHIT, CTR will be covering two topics that have been requested by members in the past--meaningful use of data and follow-up. Directly assigned stage and coding challenges will be addressed by Jan Stengel, RHIA, CTR, NPCR Education & Training Coordinator. Laura Ruppert, MHA, Indiana State Cancer Registry and Kim Turpin, RHIT, CTR, NCRA and CoC liaison will provide updates.

See you in November!

**The Marten House Hotel and
Lily Conference Center**

Maximize the potential of your cancer registry!

Electronic Registry Systems, Inc.
introduces

CRStar 
by ERS

For more than 24 years, ERS has carefully observed how cancer registrars interact with their data.

CRStar is the culmination of that experience.

We are proud to offer cancer programs a revolutionary system that will launch your registry into the future.

ERS's ground-breaking new system features:

- State-of-the-art SQL database and Web technologies deliver the cancer registry system securely to your browser, on any web enabled device, at any location
- Import casefinding and follow-up data from multiple sources with our new interface engine using HL-7, Open Database Connectivity (ODBC), XML, CSV and flat files
- Enhance your productivity with an easy to learn abstracting system and a new follow-up system that lets you communicate with your physicians, patients and contacts using email and web forms
- Use the extensive built-in reporting system to analyze your data and present your results with stunning 3D graphs, charts and customizable spreadsheets
- Dashboards let you visualize summarized registry data at a glance and provide managers with the most up-to-date information based on key performance indicators
- ERS's implementation services provides you with accurate and verified data conversions, onsite and web-based training, and complete support services delivered by a highly skilled team of certified cancer registrars and software engineers
- Ongoing research and development provides you with new product innovations and enhancements
- Our webinars, newsletter and educational programs ensure that your skills are always up to date

ISDH LIAISON, Laura Ruppert, MHA

INDIANA STATE CANCER REGISTRY UPDATE:

Just a reminder, the Indiana State Cancer Registry (ISCR) has purchased the 2014-2015 North American Association of Central Cancer Registries (NAACCR) webinar series. This series is available at no cost to individual CTRs. Please contact Marsha Lundy if you would like more information: (317)233-7158.

The ISCR received the Gold Standard Award from NAACCR for its data quality submitted in November of 2013. Additionally, the ISCR received the 2013 Registry of Distinction Award from the Centers for Disease Control and Prevention's (CDC) National Program of Cancer Registries for its data quality in the November 2013 submission. Both of these awards are a direct reflection of the outstanding work of the CTRs across Indiana. Both of these awards allow data from Indiana to be included in the Cancers Incidence in North America (CINA) and the United States Cancer Statistics (USCS) publications.

Highlights of presentations directly utilizing ISCR data-Kudos to statewide CTRs that made these presentations possible!

Indiana Cancer Consortium (ICC) D6 meeting-March, 2014, Muncie, IN

- **Oral Presentation:** "Cancer Burden in Indiana's Public Health District 6 (D6)"; Amanda Raftery, Laura Ruppert

ICC annual meeting-April, 2014, Indianapolis, IN

- **Oral Presentation:** "Just the Facts from the Data Detectives"; Laura Ruppert, Amanda Raftery, Linda Stemnock

ICC D9 meeting-June, 2014, Jeffersonville, IN

- **Oral Presentation:** "Cancer Burden in Indiana's Public Health District 9 (D9)"; Laura Ruppert, Amanda Raftery

NAACCR annual meeting-June, 2014 in Ottawa, Ontario & Council of State and Territorial

Epidemiologist-June, 2014, Nashville, TN

- **Poster Presentation:** "A COMPARATIVE ANALYSIS OF CANCER RATES FOR INDIANA'S 10 PUBLIC HEALTH DISTRICTS"; Amanda Raftery, Laura Ruppert

International Association of Cancer Registries-June, 2014, Ottawa, Ontario

- **Oral Presentation:** "A COMPARATIVE ANALYSIS OF CANCER RATES FOR INDIANA'S 10 PUBLIC HEALTH DISTRICTS"; Amanda Raftery, Laura Ruppert

2014 CDC National Program Directors meeting-August, 2014, Atlanta, GA

- **Poster Presentation:** "CARTOGRAPHIC ENHANCEMENTS TO INDIANA'S COUNTY-LEVEL CANCER INCIDENCE RATES SUPPORT COLLABORATION"; Amanda Raftery, Laura Ruppert, Chris Waldron

- **Poster Presentation:** “WORKPLACE CANCER SCREENING INTERVENTIONS: REACHING TARGETED POPULATIONS THROUGH INDIANA EMPLOYERS”; Dawn Swindle, Caleb Levell
- **Poster Presentation:** “DEVELOPING INTERACTIVE BREAST AND CERVICAL CANCER SCREENING RESOURCES FOR HEALTHCARE PROFESSIONALS”; Kate Tewanger, Caleb Levell, Wendy Noe, Chris Waldron
- **Poster Presentation:** “THE BURDEN OF OBESITY RELATED CANCERS AND THE PROMOTION OF PHYSICAL ACTIVITY IN INDIANA”; Emily Jones, Amanda Raftery
- **Poster Presentation:** “STRENGTHENING THE INDIANA CANCER CONSORTIUM THROUGH EVALUATION”; Keylee Wright, Caleb Levell
- **Poster Presentation:** “COLLABORATING TO EDUCATE ON HUMAN PAPILLOMAVIRUS VACCINATION THROUGH INDIANA’S COMPREHENSIVE CANCER CONTROL COALITION”; Dawn Swindle, Caleb Levell, Kate Tewanger
- **Oral Presentation:** “LOCAL SUCCESS UTILIZING THE FRANCHISE MODEL: COLLABORATING WITH COMMUNITIES TO ADVANCE COMPREHENSIVE CANCER CONTROL IN INDIANA”; Caleb Levell, Emily Jones
- **Poster Presentation:** “INCREASING THE CAPACITY TO IMPLEMENT POLICY, SYSTEMS AND ENVIRONMENTAL CHANGE INTERVENTIONS TO PREVENT AND CONTROL CANCER IN INDIANA”; Emily Jones, Caleb Levell
- **Oral Presentation:** “COLLABORATING WITH HEALTH SYSTEMS TO GUIDE SUSTAINABLE CANCER CONTROL IN INDIANA”; Kate Tewanger
- **Oral Presentation:** “USING EVALUATION RESULTS TO ENHANCE CANCER PROGRAM EFFORTS”; Keylee Wright, Emily Jones
- **Oral Presentation:** “PRESENTING AND IMPLEMENTING EFFECTIVE MEDIA AND COMMUNICATION PLANS TO GUIDE PSE EFFORTS IN INDIANA”; Emily Jones, Dawn Swindle

The ISCR is collaborating with the Indiana Cancer Consortium Data Committee on the new 2015 Indiana Cancer Facts & Figures for publication.

The ISCR has convened an ISCR Advisory Board with representation from physicians, CTRs, dentists, pathologists, etc. to address items such as increasing both cancer reporting and utilization of the state’s data to enhance programming. Meetings were held on April 23 and July 23, 2014. The meetings will be held quarterly.

Are you using valuable CTR resources to find lost patients?

- 1 Send us your list of lost patients
- 2 We find them for you
- 3 We send results that easily import to update your registry software

Redsson finds lost patients for cancer registries. Get in compliance fast! Send us your list of lost patients. We'll find them and provide you a report within 10 business days.

The report is formatted to easily import into your registry software. Redsson works with all major registry software including METRIQ, ERS, OncoLog, CNExT and others. Dozens of registries have already benefited from our services.

Our data is specifically designed for cancer registry needs. Plus you'll get personal service from our dedicated cancer registry specialists. Flexible pricing programs are available to meet your needs.

Client Comments...

- *"My follow-up went from 80% and 83% to 98% for both figures."*
- *"HOMERUN! After importing the Redsson data my reference year went from 79% to 94% and 5 year went from 78% to 93%!"*
- *"Thank you for all your help. Our follow-up rate skyrocketed, from 69% to 92%."*
- *"Redsson brought my follow-up from 85% to 97% in the click of a button. Thanks a million!"*
