Subject: ISCR Lunch and Learn

Indiana State Cancer Registry

Lunch & Learn Webcast

Due to technical difficulties related to the new webcast system and the first attempt at “speaking from home”, a Lunch & Learn webcast was not able to be conducted in April.

A presentation covering various abstracting subjects, including staging and first course therapy, using actual case scenarios is planned for **Tuesday, May 19, 2020 at 12:30 pm ET**. A link to view the presentation along with additional information about the new webcast system will be sent in a separate email as soon as it is available.

If you have any questions or suggestions for future webcasts, please contact Lisa LaGue, ISCR Education and Training Coordinator, at lisa.lague@comcast.net or 317-840-3942.
