

**Date: June 30, 2020**

**Subject: ISCR Lunch and Learn Webcast June 2020**

## **Indiana State Cancer Registry**

### **June 2020 Lunch & Learn FLccSC course**

A June 2020 Lunch and Learn presentation is now available. The presentation was not able to be offered as a webcast and is only available as an [Indiana FLccSC course](#).

**“Common Abstracting Errors - ISCR Lunch & Learn, June 2020”** includes a wide variety of cancer registry coding issues identified by the Indiana State Cancer Registry staff as problematic for registrars throughout the state.

#### Presentation objectives

- Describe common abstracting errors identified by the Indiana State Cancer Registry during data quality reviews conducted on submitted abstracts
- Examine relevant coding instructions for these errors
- Advise data review methods for hospital registrars to discover if coding modifications are needed

The materials included in the June 2020 Lunch and Learn course are “Category A” topics. **CTRs completing this course will earn 1.5 CE Category A credit.** To obtain a CE certificate, you must watch the video and take a quiz.

As announced at the beginning of the year, Lisa LaGue decided to stop serving as the Education and Training Coordinator for the Indiana State Cancer Registry at the end of current grant year, which means the presentation in this FLccSC course is the last Lunch and Learn presentation she will make. If you have any questions, please contact her, at [lisa.lague@comcast.net](mailto:lisa.lague@comcast.net) or 317-840-3942.
