March 2021 Education

Spotlight WEBINAR

Complimentary Webinar: Sign Up Today!

**Geek Hide and Go Seek
(Where Do I Find This?)**
Tuesday, March 9, 2021
1:00 PM CT/2:00 PM ET

Nancy Etzold, CTR, will provide tips and tools to save registrars time navigating the multitude of registry resources. Whether you are challenged by the number of references available to cancer registrars, suffer from short-term memory loss, or are new to the field, this webinar may help! The webinar is free, but registration is required. No CEs will be awarded. Register today!

IDOH Updates

Quiz Results

Breast Anatomy Quiz

Scores ranging from 78% to 100%

Average Score=91%

Average Time on Quiz=10 Min. 30 Sec.

Breast SSDI Quiz

Scores ranging from 69% to 100%

Average Score=91%

Average Time on Quiz=29 Min. 10 Sec.

Results show most registrars have a great understanding of Breast Anatomy and how to code Breast SSDI's. Therefore, I do not plan on doing a webinar on this topic. However, if you feel you need a webinar on this topic, please email me and I will consider it. I can be reached by email at: jsedovic1982@gmail.com

Abstracting Tips

Per the SEER Manual Appendix C: Coding Guidelines: **Breast**-Use the information from reports in the following priority order to code a subsite when there is conflicting information:

1. Operative report
2. Pathology report
3. Mammogram, ultrasound (ultrasound becoming more frequently used)
4. Physical examination

Per the SEER Manual Appendix C: Coding Guidelines: **Colon**-Use the information from reports in the following priority order to code the primary site when there is conflicting information:

Resected cases

1. Operative report with surgeon's description
2. Pathology report
3. Imaging

Polypectomy or excision without resection

1. Endoscopy report
2. Pathology report
