ICRA Members-

ICRA members, join us in a free presentation by Education Chair Leslie Woodard, CTR, as she presents on how the registry can play a role in some of the CoC standards. Discussion will take place on the following standards: 5.1 College of American Pathologists Synoptic Reporting, 5.3-5.8 Synoptic Operative Reports and Pathology Report requirements, 6.1 Cancer Registry Quality Control, and Standard 6.4 Rapid Cancer Reporting System: Data Submission.

Please note, while I know not all ICRA members work in a CoC accredited facility, this presentation is specifically geared towards those that are, based off some feedback/questions received. This presentation is pending approval by NCRA for (1) CE hour.
