## ATTENTION!!

After I wrote the March newsletter NCDB posted a sudden change in their Rads rule on Friday. They are now saying to revert back to old rules; Rads scores/imaging should NOT be used as a diagnosis date when it is later confirmed by biopsy to be malignant. This is in the forum (the link I previously shared they disabled, here is a new one I posted but still awaiting response: Rads Change - CAnswer Forum (facs.org)). Please also note they released a STORE 2023 update on 2/28 and it includes the rule to not use -Rads. I have attached the most recent version of STORE 2023.

Sorry for any confusion, Leslie Woodard ICRA Educaiton Chair
